Bid evidence library

We index 30 client-approved credentials, examples and supporting documents for reuse.

Who it helps

Buyers, bid managers and SME suppliers

The problem to solve

Bid teams can reuse outdated claims when recent evidence sits outside the usual folders.

Working through the brief

1. **Collect approved source material**

   Gather the agreed inputs. The tender documents, submission deadline and client-approved evidence.

2. **Index thirty evidence items**

   Track “Evidence item” and “Approved claim” together so the reviewer can connect the source information to the result.

3. **Record authorised use and ownership**

   Use the index to locate approved credentials and see who should verify them before inclusion.

4. **Check the scope at handover**

   Supplier contracts, tender submission and commercial approval stay with the client.

Worked example

A reference project is suitable but its permission to reuse is unclear. Mark that status in the evidence library.
